CORRUGATED

Corrugated rubber runner is designed with an angular tooth top pattern and a textured back. This runner fulfills a variety of needs including floor protection, reduction of slips and falls and provides a silencing effect.

WIDE FLAT RIB

Wide Flat Rib rubber runner is designed for heavy-duty applications. This design provides sure-footedness, easy cleaning and acts as a scraper to trap debris and water.

RIPPLE

The Ripple rubber runner has a non-directional textured finish, with an attractive easy to clean design. Easily customized, this versatile runner is durable and abrasive resistant. It has a smooth backing and is designed for limitless OEM applications.

Proven Industrial Matting Solutions

When it comes to quality matting, Dimex™ is a name you can count on for dependable performance. Dimex™ matting products are the result of years of research, testing and development. We lead the industry in product quality, availability and customer support. No matter what your matting needs may be, Dimex™ can deliver the perfect solution.
